GRADING & CLASS RANK

The US Performance Academy transcript reflects a cumulative, unweighted GPA based on a 4.00 scale. The lowest passing grade is a D-.

US Performance Academy does not rank students due to the individualized nature of each student’s academic pathway toward graduation. Every student follows a customized schedule that reflects their unique goals, pace, and learning needs. As a result, we do not designate an official class size for our seniors. Students can accelerate or adjust their academic timelines to graduate when it best aligns with their personal and academic plans.
